Jasmine Opusunju, Dr.P.H., M.S.Ed., M.C.H.E.S., CPH

CAN DO Houston

PARTNERSHIPS

Advisory group: Community Advisory Boards (CABs) for some focus areas

Resource sharing w/ community: **17%**¹

Partner Type	Number
Community-based organization	29
Academic	11
Health care	8
Government	4
Individual community member	4
Other/unknown	4
Total	60

FOCUS COMMUNITIES

Consortium activities occur in high-priority and high-need counties in Texas, which includes subpopulations of Hispanics/Latinxs, African Americans, Vietnamese Americans, and rural communities

Summary of Activities

COMMUNICATION & EDUCATION

Education

In addition to individual-level COVID-19 prevention and information interventions, symposiums, and town halls, education was disseminated through media campaigns, newsletters, and community health workers (CHWs)

Community Outreach

Nearly 250 live/virtual events from the beginning of Texas CEAL with a reach of over 100,000 people.

Media

Media interviews

Virtual/social media

Digital outreach campaigns; high schoolers trained to write social media posts; website

Language

Spanish, Vietnamese

VACCINATIONS

- 2,100 vaccinations provided
- CHWs call people in partners' databases to schedule vaccine appointments, follow up on appointments, and provide referrals to wraparound services
- Vaccination events in priority communities organized by partners
- COVID-19 Vaccine 101 Communication Training for meaningful conversations to decrease vaccine hesitancy in diverse populations

Summary of Activities

COMMUNITY EDUCATORS

- Community Outreach Team includes 50 CHWs housed at primary community partner
- Additional CHWs housed at other partners also do training and outreach
- CHWs trained to collect surveys

CLINICAL TRIALS RECRUITMENT

- >800 CHWs took Clinical Trial Community Navigation training with continuing education unit credits

RESEARCH & EVALUATION

COMMON SURVEY (CS)	CS1	CS2
Sites submitting data	3	1
Data collection waves	1 wave (2 sites), 4 waves (1 site)	1
Sampling strategy	Nonprobability	Nonprobability
Sample size	1,900	308

Community assessment

- ~45 focus groups with community members, individuals recovering from COVID-19, and CAB members
- ~80 interviews
- Deliberative methods with community opinion leaders

Intervention research

- Small-scale randomized controlled trial of educational intervention

Evaluation

- Pre/postevaluation of Clinical Trials Community Navigation training
- RE-AIM evaluation

Population health outcomes

- State-level COVID-19 vaccination data

SOCIAL DETERMINANTS OF HEALTH (SDOH)

- Assess structural and systems-level factors contributing to COVID-19-related behaviors
- Referrals to wrap-around services by CHWs for people who schedule vaccine appointments or take surveys

DISSEMINATION

Peer-reviewed

- 11 total peer-reviewed publications²
- 4 peer-reviewed publications with nonacademic co-author

Community

- Community forums with partners

¹ From Year 2 application budget narrative, actual allocation may be different. Defined as the percent of the project budget allocated to nonacademic organizations (excluding state government), community-based positions, community members, incentives for engagement (not data collection), or community-based resources such as office space, equipment, etc.
